

DEPARTMENT OF WILDLIFE AND FISHERIES
RECORD RETENTION POLICY #51
Approved by J. H. Jenkins, Jr., Secretary, August 12, 2002

According to R.S. 44:412, the head of each agency shall establish and maintain an active, continuing program for the economical and efficient management of the records of the agency.

Statute further provides that the head of each agency shall submit to the state archivist, in accordance with the policies, rules, and regulations prescribed by the Secretary of State and the implementation standards and procedures established by the state archivist, schedules proposing the length of time each state record series warrants retention for administrative, legal, or fiscal purposes after it has been created or received by the agency.

The objectives of this policy and related procedures are to:

- ensure compliance with provisions of law, rules, and regulations,
- control the creation and proliferation of records,
- identify and protect vital records,
- promote the security of records,
- establish safeguards against removal or loss of records,
- affect the management of information to ensure that it is accessible, timely, thorough, cost effective, and accurate, and
- conserve space.

The Secretary shall designate an employee of this department as *Records Officer* to serve as a liaison between this department and the Secretary of State (S.O.S.) Records Management Program. The *Records Officer* shall form a *Records Management Committee* which shall have the responsibility of developing a Record Retention Manual (to include the policy and procedures) and retention schedules for each program within the Department of Wildlife and Fisheries.

The *Committee*, under the direction of the *Officer*, shall review annually the Record Retention Manual. The *Committee* shall also be responsible for reviewing and revising as necessary the record retention schedules for each program within this department annually.

No officials or employees of this department shall alienate or destroy any records under the management of this department except in accordance with applicable law and policies, rules and regulations. Every division and program within the Department of Wildlife and Fisheries shall be responsible for adhering to this policy as it relates to the records under their use and control.

Upon termination of employment with the state, unless otherwise directed by law, any gubernatorial appointee of this department shall, prior to transfer of his records to a successor, notify the state archivist to arrange for an appraisal to determine which

records or records series should be retained in the agency office and which should be transferred to the custody of the S.O.S. Archives for permanent retention.

This policy is posted on the Department of Wildlife and Fisheries Intranet Web Site for employee access. Supervisors in the Department are responsible for notifying their employees of this policy and providing a copy of this policy to those who do not have intranet access.
